OFFICE PRODUCTS

Welcome to the world of Borg

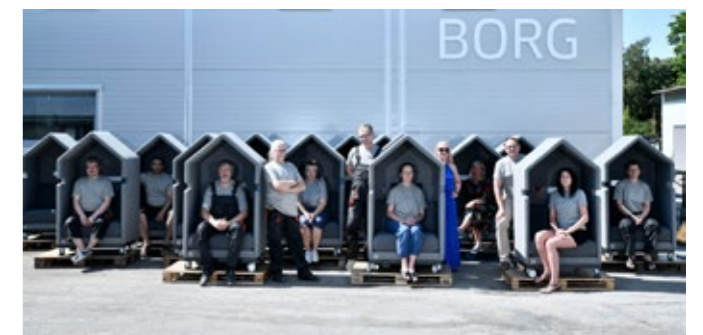

BORG was born out of respect to well-made furniture.
Design, furniture, production – this is our passion since 2005.

Whether it's home, office or a hotel we believe that furniture is in the heart of it. Well-designed pieces have their character, they tell a story and most importantly, thanks to the high-quality materials they tend to last very long.

Growing up in the family of furniture makers, founder of the company Mart Jõhvikas lives and breathes furniture design and craftsmanship. People who work in Borg today believe that aesthetics and attention to detail are the key to make something unique and timeless.

Borg furniture is made in Tallinn, the capital of Estonia – the country famous for its high-tech skills. As Estonians we also live up to that standard – by combining modern technology and artful thinking, we make functional furniture that is also pleasing to the eye. Be it noise-reduction design and materials or high-quality comfort, Borg furniture is always well thought-out.

303

Bubbly dreams that will come true

A sofa with almost unreal shape – round and bold. Best suited for offices and waiting rooms where innovative form is more important than long-lasting comfort.

The moments with 303 gives you a chance to feel that bubbly and cloudy softness – you just relax and let it carry you to best solutions.

Amps

Workspace, Sofa & Pouf

It doesn't really matter if you have a productive team meeting or you just need to relax from a busy day at office - Amps Workspace, Sofa and Pouf gives you an opportunity to do it all.

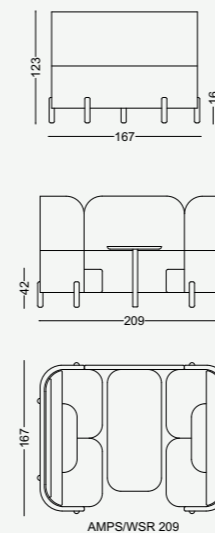

Amps Workspace has great acoustic sound absorbing qualities and it fits perfectly in offices or public areas where large crowds or noise can be an issue. Innovative solution gives you opportunity to have all in one - comfortable seating and productive table for laptop or coffee cup.

Amps Workspace can also be used as a double (sofa) or as a single (armchair). For its multifunctional character we also added a pouf to the selection. With just two different modules, you can easily create many different combinations and thanks to this, the pouf can be adjusted perfectly to any space.

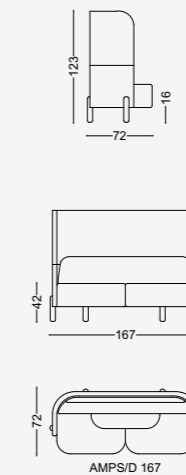

The designer thought: "Let's go crazy!" and added some other cool features to the pouf so that now you have the possibility to add an armrest for the coffee cup that supports your creativity. The armrest module also has a socket for an USB-cable.

Big Boi

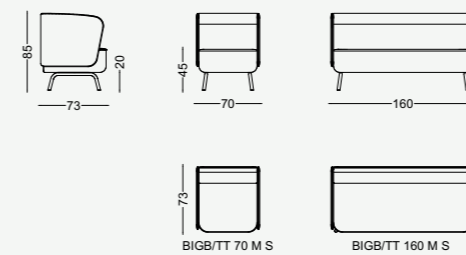

How are you doin'?

This is quite a common thing when one grows up: they get wiser, taller and look at things from a totally different angle.

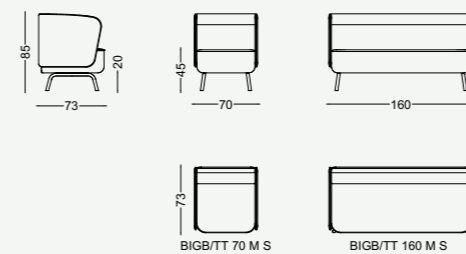

It is something that also happened to Big Boi which was born as an idea of something bigger and ended up as a family of many different variations. Each one having it's own purpose and place to serve us the best way.

Bond

It's something that's a must-have

If you consider yourself as a trendy person with an urban lifestyle than you need the Bond Sofa. This modern classic have the possibility to show off

with it's charming retro look. Beside effective and memorable look Bond is light and compact - ideal for a smaller space.

Bookish. Mart & Martin
Frame: painted MDF / Seat: HP foam / Castors

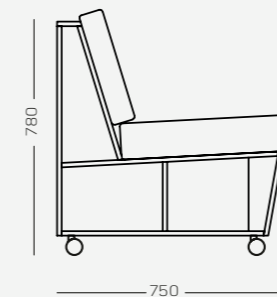

Bookish

Reading makes you smarter

Well, Bookish is a kind of selfish chair. For those who like to keep books close at hand or just want to find a handy storage for books and papers. It is certainly a 'function over form' piece of furniture. It is comfy, but not so comfy that one could fall to

sleep in it. It's pure and simple structure will keep sitters' alert and thoughts active. It also has a little handle and castors to move it even closer to more books. Suitable for offices as well as any home.

ARMCHAIR

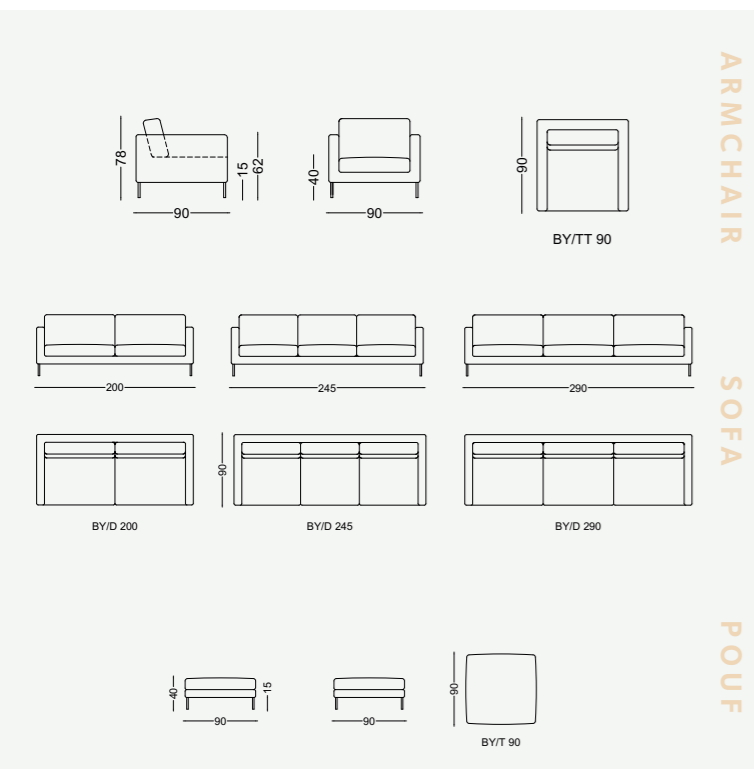

Büroo

Straight ahead to the business

Couch that makes so many compromises – it doesn't matter if the room is big or small, if the walls are colourful or not... this modern, yet classical model gives you the opportunity to match it with any

details. Straight angles and strict lines offer smooth comfortness. Ladies and gentlemen – we present you the sofa, armchair and pouf.

Büroo. Aet Piel

Chat

Contrary & good

This universal design has it all – it gives you that compact look but at the same time it's large enough to carry out a meeting. Chat will give you an impressions of minimalism and grand at the same

moment – these pleasantly contradictory ideas will lead you to something good.

Deera

Underestimated beauty

Every office and home needs it, but sometimes it's beauty is hardly noticeable – a timeless armchair with compact size. It has high legs and airy, light

design which makes it perfect for small rooms. Simple lines and comfortable form make it an excellent yet needed design element.

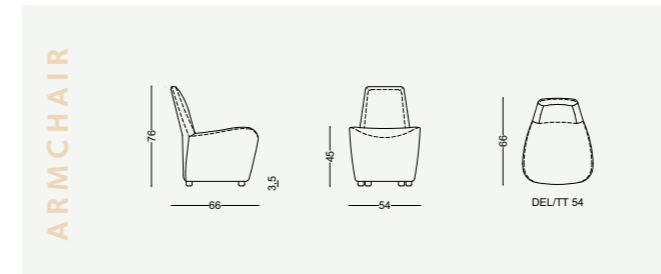

Deera. Kristel Jakobson
Frame: birch plywood / Seat: RP foam / Legs: oak

Del

Confused feelings

This design brings up some confused feelings – an armchair or something else? You can say it's just a small chair that is soft and comfy, but actually it is

so much more. Del is mainly meant for office use but can be used as a dining chair as well. Let your imagination fly!

Del. Maria Marjanen
Frame: birch plywood / Seat: RP foam / Legs: concealed (40 mm)

eCell

A noise-reducing booth for your office

eCell - as the name itself - looks cool and feels even cooler. Hot corner in your office that has universal use. It gives you all the privacy to take your calls. At the same time it's a perfect place for you to gather your thoughts in silence.

eCell gives you enough privacy while keeping a visual contact with the surroundings. You cannot miss a thing that is going on in the office - but at the same time you remain unnoticeable for others.

Two-person version is superb for 1-on-1 conversations or meetings. Fits perfectly in open offices where large crowds and noise can be an issue.

Frenchy

Allure that gives you chills

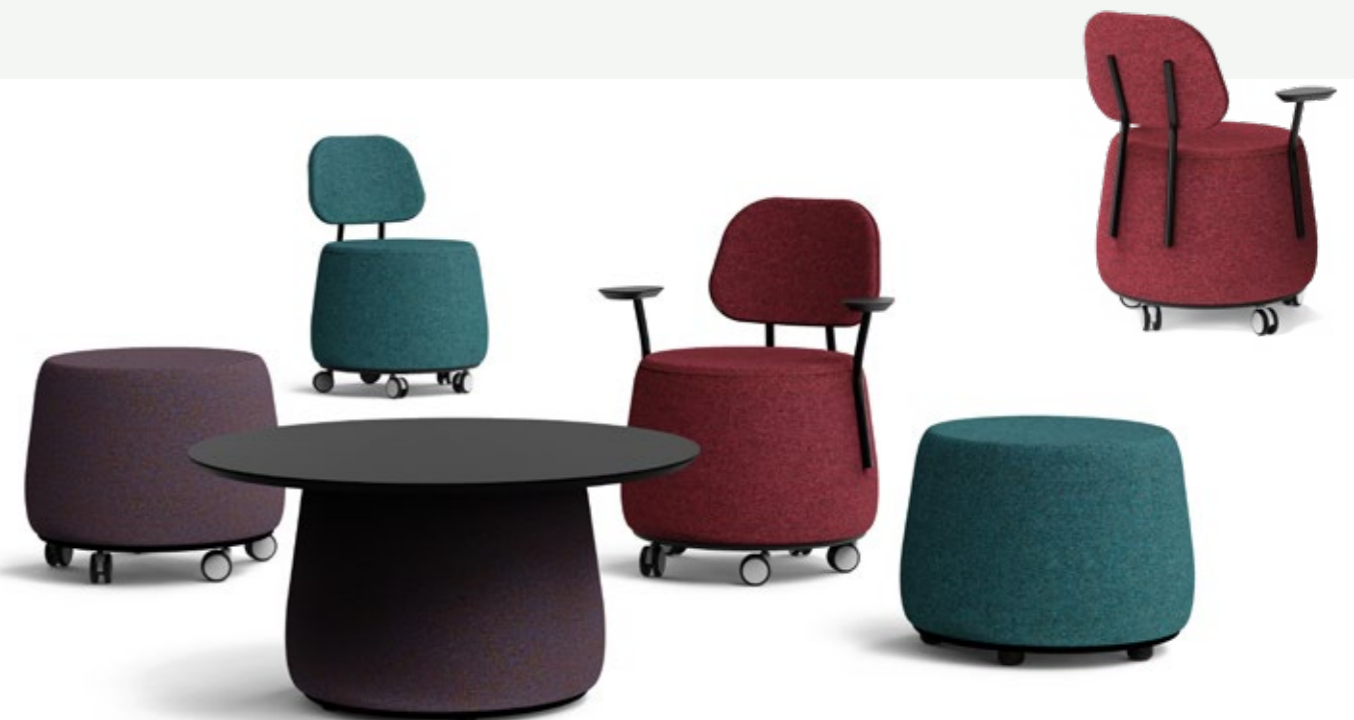

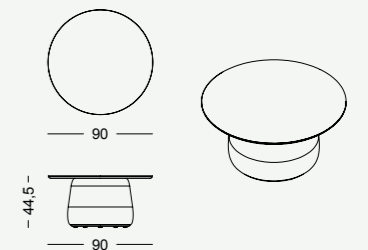

Frenchy was born from an idea of how the real french looks like. It rolls around the floor as elegantly as a slender french woman strolls around the boulevards. It's round body is just like the beret sitting on top of that that woman's perfectly done

hair. Just like that mysterious french woman, it has many sides to its characters, from a standard ottoman to a seat with castors, back and hand rests, topping off with a big mushroomy side table.

Tri

Solid as a rock

If your office is all about glass and concrete, minimalistic and straight lines, the TRI is for you. These chairs are like little icebergs in the ocean of gray and cold concrete. The chairs 'genes' descend from Iceland's almost empty nature and Swiss

brutalist architecture. But that doesn't mean that the chair is hard or cold in any way. Vice versa, it even has a footrest if you prefer to have it. A chair like this holds your head cold and thoughts right on course.
