

# Fisher Collection. Pure furniture.

Lourens Fisher's collection is based on purity. We feel a passion for pure materials and pure design and translate this into our furniture pieces. Solid wood, stainless steel and clear float glass are basic materials which are transformed by pure craftsmanship into architectonic and minimalist design furniture pieces.

Only the best materials and production methods are good enough for Lourens Fisher's furniture. This is the way we manage to design PURE FURNITURE. Lourens Fisher's designs are created by a select group of Dutch designers. The designs distinguish themselves with their timeless appearance, clear lines and functional use of material.

The Lourens Fisher collection consists of furniture pieces which are suitable for both home and the office. Our tables, for instance, find their way into modern offices and elegant living rooms. Besides the range of tables, our display units and hat racks are highlights of modern furniture and are often used in well-known companies and governmental buildings.

A new addition is the PURE WHITE collection, minimalism in its best form. By using the Color Core, environmental friendly, practical and durable materials, Lourens Fisher reaches a high level of interesting design, not only loved by architects, but also creating designs for common sense. Please enjoy this collection and feel free to mail us your comments or remarks on [purefurniture@lourens-fisher.com](mailto:purefurniture@lourens-fisher.com).

Paul Visser  
(Managing director)

## IQ Dining- /Conferencetables

The finesse within the rectangle IQ table is the undercarriage with the open legs en triangle-shaped inserts. The narrowed table top gives the table its slim looks, the construction makes the table very stable. Design: Paul Visser.

# Cust

The unique designs  
even more exclusive.

## Alucompact

Alucompact is a decorative Color Core material, equipped with three aluminum layers.

The durable material is scratch resistant, easy to keep clean and gives the furniture a very strong identity. It is available in the colors white and black top layer, with a black core.

## Solid Wood

The solid wooden table tops are available in different thicknesses and wood species. The solid wooden table tops are available with different finishes, including white wash, oiled or lacquered. The available wood types are: Oak white wash, oak, cherry and walnut.

## Color Core

Color Core is a material with a pure color core with an exceptionally high strength. It is environmentally friendly and easy to keep clean. Color Core is available in white.
