WHO IS GOLLY ? YOU ARE GOLLY

Who is Golly? Yes, that's right. Who is Golly?

The answer is at the same time very simple and very complex. You have to imagine an open project in which the manifold personalities of designers, interior decorators and architects work together to create new objects and new ways to use them.

WHAT IS GOLLY?

Golly is a range of furnishing accessories to create high-design solutions for offices, restaurants, hotels, airports. But Golly is not just that: it is also a collection of shapes that can be freely mixed to allow each space to have its own identity and its own distinct character.

Golly means quality, superb quality and attention to the environment in respect of natural resources. Each component is made with fabrics and materials of the latest generation that visually capture the essence of a culture based on sensitivity and sustainability.

WHY GOLLY?

Golly is mainly a challenge in a market where innovation and creativity are ever more rare and precious. In a constantly evolving world, Golly becomes the perfect complement to the evolution of style, because it embodies the possibility of venturing beyond set patterns and restructuring the given space whenever needed.

In a nutshell, Golly is the answer to those who constantly try to design living spaces where changing lifestyles become more pleasant and natural.

WHO IS GOLLY?

Who is Golly? Actually, there is no precise answer, because Golly represents thousands of designers around the world who won't settle for ready-made solutions. Golly is a mirror in which dynamic and brilliant architects and designers recognise themselves and in which they compete to find new solutions and capabilities.

We can therefore say that Golly is us, it's you. Golly is the ongoing evolution of a system that draws its essence from a human commitment to tearing down borders and building places where communicating and meeting becomes an increasingly stimulating experience.

ENGINE
OF CREATIVITY
