De bureaus en tafels in Collectie LV (in 2006 ontworpen door Marieke Castelijns), kunt u met losse bladstroken van 20, 30, 40 en 50cm breed zélf samenstellen. Zodoende bepaalt u niet alleen de uiteindelijke lengte, maar ook het ritme van de naden in het blad: strak in één stramien of juist een nonchalante mix van breedtematen. En kunt u bepalen of uw blad uit één houtsoort bestaat of verrassend gemixt wordt met frisse lakkleuren. De losse bladstroken maken bovendien vervanging, kleurverandering of aanpassingen in de toekomst mogelijk.

Het stroken-effect komt op de bijpassende kasten terug in het afdekblad, dat links of rechts tot op de grond doorloopt.

Zowel de bureaus van 100cm diep als de benchtafels van 160cm rusten op geheel gelakte kastjes, met rondom bergruimte. De standaard werkhoogte van 74.3cm is middels ophoogstrippen naar 76.3 of 78.3cm te verhogen. Bijpassende vergadertafels zijn op dieptes van 100cm, 120cm of 160cm verkrijgbaar en kunnen tot wel 310cm lengte samengesteld worden. Bij de 110cm hoge statafels is de maximale lengte 210cm.

De LV-collectie is verkrijgbaar in 'noten wild' of 'eiken wild' óf juist een spannende mix van lakkleuren en oppervlaktestructuren als unilak, effectlak, hoogglanslak of gelakt kantmotief.

Een overzicht van de mogelijkheden vind u uitgetekend op blz. 18 t/m 21. Voor lakkleuren zie blz. 138 en 139.

The desks and tables in the LV collection (designed in 2006 by Marieke Castelijns) feature individual wooden strips of 20, 30, 40 and 50 cm wide, allowing you to create your own table or desk surface. In this way, you determine not only the eventual length of your table, but also the 'visual rhythm' of the surface joints: at orderly, evenly-spaced intervals, or in a playful pattern of varying widths. In addition, you can decide whether the table or desk surface should consist of a single type of wood, or a surprising combination of vibrant paint finish colours. The individual wooden strips also make it possible to replace strips, change their colour or make a range of other adjustments to adapt your table to changing tastes and requirements.

The wooden strips return in the tops of the matching cupboards, which run down to the floor on the left- or right-hand side.

The desks (100 cm deep) as well as the bench tables (160 cm deep) rest on cabinets with a full paint finish and ample storage space, accessible from both sides. The standard worktop height of 74.3 cm can be increased to 76.3 or 78.3 cm by means of special strips.

Matching conference tables are available in depths of 100, 120 or 160 cm, with a length of up to 310 cm. The 110-centimetre-high standing tables are available in lengths of up to 210 cm.

The LV collection is available in 'wild walnut' and 'wild oak', or in an exciting mix of different paint finish colours and surface structures, including monochromatic, effect, high-gloss and decorative finishes.

An overview of the various options in the LV collection can be found on pages 18 through 21. For an overview of paint finish colours, please refer to pages 138 and 139.
