No. of work station	kWh/year	Saving in € at 30%	Decreased CO2 emission/year
1 work station	300 kWh	30 €	0,24 ton/year
10 work stations	3000 kWh	300 €	2,4 ton/year
20 work stations	6000 kWh	600 €	4,8 ton/year
50 work stations	15000 kWh	1500 €	12 ton/year
100 work stations	30000 kWh	3000 €	24 ton/year
150 work stations	45000 kWh	4500 €	36 ton/year
300 work stations	90000 kWh	9000 €	72 ton/year
600 work stations	180000 kWh	18000 €	144 ton/year
1200 work stations	360000 kWh	36000 €	288 ton/year
1500 work stations	450000 kWh	45000 €	360 ton/year
2000 work stations	600000 kWh	60000 €	480 ton/year

Save electricity and sort your cable chaos!

Halfpipe ECO Complete
An electricity saving complete set.

Complete set

Halfpipe Complete

Function, Form and Design, that's how you can describe Halfpipe complete. It's produced for a very quick and easy assembly. Saves both time and money and most importantly... an optimum cable solution at your working station.

Linjé Cable holder

Made from aluminium. Straight and strict lines keep cables organized. Available both in chrome and anodized design.

Cable holder Volume 47

Is developed to suit small tables and limited areas but still takes care of many cables. Suits desks with separate adjustable surface. For best result: complete with Complete Set, Art. No. 700900.

Quick Cable holder

Designed for mounting straight underneath the desk, suitable for installation under desks with visitor seats etc. Available in two lengths. Easy installation.

G-49 and G-79 Cable holder

Allowing cables to be routed the shortest way to your equipment. Free passage for full coverage installation beneath the steel/wood structure of your desk.

CableCare Cable holder

The original! The first cable holder on the market. Spacious, design protected cable collection holder with a combination system allowing holders to be connected in series to any length, for high or low mounting.

Cable holder for conference tables

Cable holder adapted for the Power Box. Foldable ends for optimum suitability. Now also available in single Power Box size.

Armed Cable holder for conference tables

Armed with power sockets, network, VGA. Adapted for the Power Box conference. Tip, combine with Power Box empty.

Power Grommet

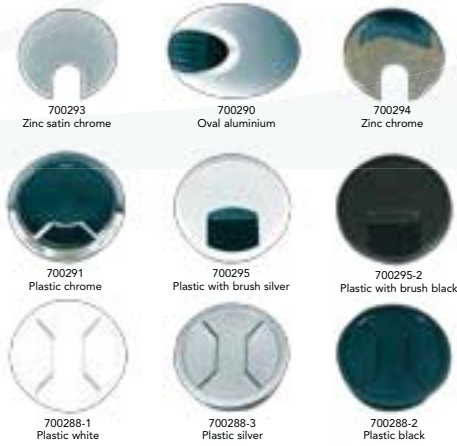

A handy power socket with four cable paths and a brushed aluminum frame. Quick and easy to install in an 80 mm diameter circular hole.

Aluminum Cover

With brush guard. Available in three different sizes.

Cable Grommets

Cable collector in fabric with zip

Cable collector PET

Cable collector Ø 60

Collects cables from desk to floor, wall or ceiling. Formable plastic construction. Three channels for separating cables.

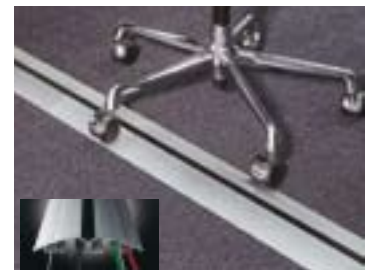

Cable collector Cobra

Collects the cables and protects them from the wall to the desk. With two channels for separating cables.

Cable collector Ø 22

Flexible plastic collector for cables, to be opened and closed with a simple tool.

Floor cable collector aluminium

Channel system for separating cables.

Powerport light emitting diodes

Powerport

Prized designed column, available in several designs. Standard is plastic lid in silver but is also available in black, chrome, brass, stainless steel and with light emitting diodes.

Powerport chrome

Powerport

Powerport kitchen

Powercenter

With desk clamp. To be placed on the desk or attached with desk clamp as shown in the picture. Can also be mounted under the desk or under a kitchen cupboard.

PowerUnit 3-2

A three socket junction box with 1,5 m cable and two network units (Cat. 6) in a metal frame. Can be attached to a cable holder, fixed under the table or in a wooden table outcut.

Turnable junction box

Can easily be mounted on or under the desk or in the Gotessons cable holder for conferences. Adjustable 360°. Protects against electrical overload and risk of overheating. Also available with desk clamp.

Turnable junction box with clamps.

Wordlist

VGA

Analogue connection between monitor and CPU. To show your laptop presentation on the main screen or projector via the Power Box.

Mini-jack 3,5 mm

Analogue audio connection. For adding audio to presentations or for headset use.

HDMI

Audio - visual digital connection between monitor and CPU. An audio-visual connection to the mainscreen.

USB

To transfer data. Connect memory sticks for office presentations, camera memory card readers, GPS, printers or synchronized mp3/mobile. The USB also recharges.

Network

Internet access.

Network-switch

Splits one incoming network connection into 5 or 16 useable connections.

VGA-switch

To connect several Power Boxes to one projector or main screen. Switch from one Power box to another via remote control.
