ECO-Power

700810	3 m cable	white	
--------	-----------	-------	--

Facts: The Eco Power has 6 sockets. The 1st outlet controls the other 5 sockets, connect your computer to this socket. When the computer jumps to standby mode it automatically turns off the power to the remaining 5 sockets. This saves about 30-40% of normal power consumption in your office. As soon as the keyboard or mouse is touched again all jumps back on again. The adjustable current threshold optimizes the current flow from the master socket.
