SALLI SADDLE CHAIR® - TECHNICAL INFORMATION

Upholstery

Leather

Medium strength, chrome tanned, Scandinavian bovine leather, comes in 8 colours, plus 16 additional colours with a longer delivery time.

Cleaning and maintenance

Vacuum-cleaning regularly. Leather stays cleaner and beautiful longer when wiped regularly with a damp cloth. Clean stains immediately. Use a damp cloth or paper towels with some water or mild cleanser. You can also use special leather conditioners (please see Salli accessories).

Some bleeding textiles might stain light coloured leather. Possible scarring and slight changes in colour are characteristic of genuine leather and do not affect its durability.

Washable and disinfected leather

Covered with PU-material, washable and disinfected.
Comes in 3 colours: black, white and brown.

Cleaning and maintenance

PU-covered leather can be used temporarily in damp conditions, for example on boats and terraces; prolonged exposure will damage the product. The leather's surface can be disinfected with solvent-free products. Washable leather can be washed with solvent-free cleaning products.

Artificial leather

Comes in black; easy to disinfect.

Cleaning and maintenance

Wipe the stains with a mild soap and water. Let the leather dry or dry it with a hair dryer. Artificial leather can be disinfected with ethanol.

Fabric

Gabriel's "Comfort", 88% polyester, 12% polyurethane.
4 standard colours, with 100 colours at an additional price.
Durability >100 000 Martindale.

Cleaning and maintenance

Water washable with a neutral cleanser at 60° Celsius or dry clean, iron at a warm temperature. Water washable at 40° Celsius, if bonded with flame retardant back-coating. Maximum shrinkage 2%. Most stains can be removed with a suede brush, an eraser or fine sandpaper. You can also use a solution of lukewarm water and a neutral detergent.

ESD leather

Medium strength, chrome tanned, Scandinavian bovine leather,
comes in 3 colours: black, blue and brown.
Cleaning: vacuum-cleaning and wiped regularly with a damp cloth.

ESD fabric

Manufacturer: rall Roth, 95% polyacryl, 3,75% polyester, 1,25% stainless steel.
Dry clean. Comes in 1 colour: blue.

Water resistant fabric (seat covering)

Elastic fabric, covered with PU-material. Comes in 2 colours: blue and green.

Fire resistant fabric (seat covering)

100% polyester. Comes in blue.

Cotton fabric (seat covering)

100% cotton. Comes in 3 colours: black, blue and green.

Seat covering

Leather, 8 standard and 16 additional colours.
Removable, for one- or two-part seat.
Extra seat covering, easy to change the colour of your seat when wanted.

Leather conditioner

Package includes Leather Soft Cleaner and Leather Protection Cream.

Leather Soft Cleaner is a mild, water-based cleaner that can be used on most alinine and pigmented leathers. It cleans soiling and most water-based stains.

Leather Protection Cream is a water-based protector for all leather types, except for nubuck and suede leather. It provides excellent protection against oil, water and alcohol-based stains and also resists the effects of everyday soiling. It also keeps leather nice and soft.

For more information, please see packaging.
