About the guide.

With its modular frame, articulated structure and large, cantilevered tops, there is virtually no limit to the shapes and sizes the Travis table range comes in.

The purpose of this guide is to help you identify the right table configuration for the project concerned from all the numerous configurations available.

Guideline prices*, dimensions, 2D and 3D views are listed for 29 standard table configurations, sorted according to the maximum number of people. As a result, you can now offer quality solutions when you are talking to the customer already. The configurations shown have also been prepared to make them quick to handle.

The table configurations are based on the following designs:

Minimum specifications: laminate surface with straight plastic edge, laminated T-shaped base and pedestal support.

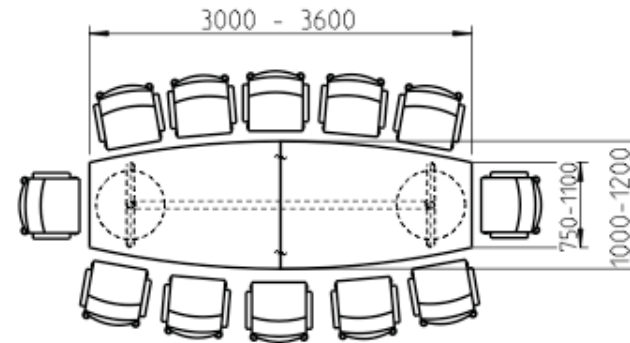

Maximum specifications: veneered surface type 2 (walnut) with chamfered wooden edge, polished disc base/bright chromium-plated pedestal support.
