Haworth, Inc. Planes Table Collection

Expires 10-23-2008

Planes integrates with multiple environments from high end conference rooms to continuously changing meeting rooms. Planes provides consistency throughout the space. The Planes Collection is easy to specify, as it offers a variety of finish options, table shapes, base choices, edge profiles and comes in 6" increments - creating unlimited options to meet your needs. The Planes Collection is more than just tables - it's carts, credenzas, podiums, easels, boards and wall tracks. Planes will integrate with any of the Haworth product solutions.

Planes allows easy functionality with the ability to flip, store, conceal, connect and plug in effortlessly:

Flip — Flip top tables that can be mobile to allow the tables to nest together for easy reconfiguration

Store — Nest and break down of flip top. Saves valuable floor space

Conceal — Wires/cable management

Configure — Entire collaborative environments - mobile, different shapes for multiple applications. Reconfiguration allows user flexibility.

Plug In — Power and data options

Intuitive Function — Its an easy/logical line to use

Specify — Conference tables range from 30"x60" to 60"x270"

The Planes collection was designed by Haworth Design Studio, Dan West and Daniel Figueroa, of Bad Munder, Germany. Planes is a global product line and can be positioned with any systems product.

Note - This certification is not valid for the powered option.
