

BLUES

Design: Tom Stepp

BLUES is a conference chair designed to provide users with a feeling of authority and dignity. The carefully selected materials ensure an expression of simplicity and serenity.

This conference chair comes with detachable cushions and a laminated shell in beech, birch, cherry, walnut, oak or maple that is treated with natural lacquer. The chair is supplied with a revolving metal frame in matt chrome and is available with return function and tiltable seat. The armrests are wound with reddish or black leather.
