# TWO CHAIRS IN ONE

The true novelty is the possibility to integrate **two seats in one chair**, simply by moving the seatback from one side to another. By doing so, you can switch from a traditional seat to a "saddle seat", very useful to **reduce tiredness to back and shoulders.**

**STANDARD**

**SADDLE**

Whatever direction you move to, the chair **accompanies the movements and makes them pleasing and comfortable.**

It is possible to customise the chairs with **different fabrics/colours.**

### RUBBER-COATED WHEELS

They perfectly stick to the floor and make movements **flowing and silent.**

### 10 POSSIBLE INCLINATIONS

5 in standard position / 5 in saddle position
