## cantilever table · round top

designed with collaborative workspaces and events in mind, this is a flat pack table with a sketching paper accessory.

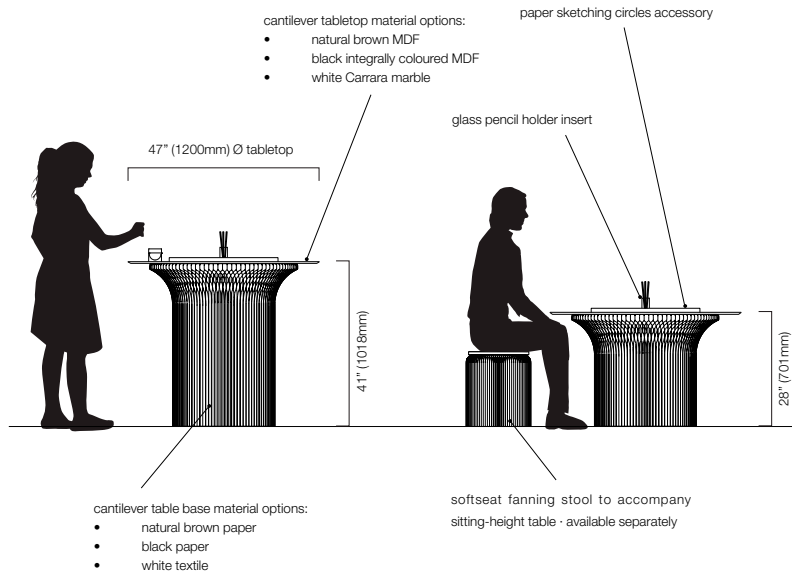

the base uses flexible honeycomb geometry to quickly fan open and connect to itself via magnetic end panels. The bases are made from paper or textile, and paired with a tabletop made from Carrara marble or a sustainable, engineered wood. The MDF tabletops are SCS NAF (No Added Formaldehyde) and FSC-certified, with a polyurethane satin finish. The black MDF is dyed black all the way through. The natural colour MDF is Medex®, engineered for interior high moisture areas and significantly exceeds standard MDF physical properties.

the round table, an inherently democratic shape, is a place to share ideas. A glass centerpiece doubles as a pencil holder and spindle for a stack of sketching circles. The sheets revolve around the centerpiece as thoughts are passed and developed between people. When used for a dining table, the circles and centerpiece can be removed or used as a flower vase.

multiple bases may be connected and paired with modular tabletops to create any length or shape of table.

Design by Stephanie Forsythe + Todd MacAllen

softseating fanning stools available separately

following an event or collaborative coworking session, the paper table collapses flat for easy storage and transport, returning flexible space to its surroundings.

a thicker, stiffer version of the water resistant polyethylene non-woven textile used in softwall, along with a smaller cell structure, gives the white cantilever table impressive weight bearing capacity. The robust paper base supports the same weight.

the glass centerpiece acts as a pencil holder and spindle for the sketching circle accessory, or doubles as a vase for a dining table.

the sitting height cantilever table pairs with molo's 18' tall fanning stools to make a dining or meeting table.

the relaxed formality of a standing height table encourages coworkers and strangers alike to join together to collaborate, or to share a drink and chat.

a twist on the office whiteboard, sketching circles add tactile engagement to the collaboration process. As sheets spin around the table, ideas develop and grow.
