Need an extra rugid finish?

What about upholstering your bench with the material used for truck covers?

special execution

Working with us is easy. Send us your ideas for a bench as a technical drawing or a sketch.

production of your bench

We can personalize your bench with prints of your selection of photographs on upholstered panels.

We will make a technical drawing of your unique bench and ask for your confirmation of the measures.

Should you feel uncomfortable with taking exact measures, contact us. We can arrange for one of our dealers or our own people to measure for you.

Add your logo to the button on a diamond tufted bench.

The frame of your bench is produced directly from the approved drawing by CNC machine.

Made to measure.

You can download all our models in 3-D via Sketch-up from Google to help you visualize your interior.

Finally our craftsmen will upholster the bench as per your choice.

HUTTEN is environmentally friendly

HUTTEN spares where possible non-renewable resources and works mainly with wood, a natural, renewable and CO2 neutral production material. This will never negatively affect the quality of our furniture. In the vision of HUTTEN true sustainability, in addition to carefully using materials, has everything to do with a significant proven durability of furniture in heavy use.

We primarily work with FSC and PEFC certified materials, both in solid wood and chipboard material/construction for banks etc. We focus on minimizing waste in our production with the choice of materials, our planning method and state of the art technology and processing.

We are using only water-based stains, recycle solvents, spray electrostatically, re-use cleaning materials etc..

For our fabric collection we also work with fabrics from recycled materials.

The packaging material we use, is recyclable where possible according to German standard.

Further information will be gladly provided upon request.
