# apollo

designed by Radar

Developing our product portfolio to include meeting and conference tables was a natural progression for Boss Design. Our impeccable credentials in the industry have resulted in a table range that is at the cutting edge of design, superbly engineered and uses only the finest materials and componentry. Apollo can be complemented by a range of high quality seating and is supported by the Boss Design customer service that is second to none.

Apollo is certified to BS EN 15372: 2008, test level 2 and comes in a range of dimensions and forms. The unique feature of this table is its extruded leg detail which is available in five finishes; painted silver, black and white, polished aluminium and chrome. Apollo can be specified as a square, rectangular, oval, elliptical or circular table and comes in a selection of table top finishes with a square edge profile.

Boss Design is pleased to offer a design and space planning service to help you to maximise the potential of your workplace. We realise that space planning is important to you and can enhance an environment for your users. The team at Boss Design are experts in workplace planning and are happy to collaborate on projects no matter how large or small.

This image shows the Apollo table with a 2400mm x 1200mm Black American Walnut veneered top. The aluminium legs are chromed and come with adjustable black feet.

The accompanying chairs shown are from the Boss Design Delphi collection.

This image shows the Apollo table with a square edged 2000mm x 1000mm Black American Walnut veneered top. The aluminium legs are chromed and come with adjustable black feet.

The accompanying chairs shown are from the Boss Pro collection. The matching credenza is a 1800mmW x 450mmD x 750mmH in Black American Walnut veneer.

This image shows the Apollo table with a 4500mm x 1500mm Black American Walnut veneered top. The aluminium legs are chromed and come with adjustable black feet.

The accompanying chairs shown are from the Boss Design Mars collection.

# cable management

The Apollo table range comes complete with cable management. Every table size and shape has this feature fitted as standard. Cables can be fitted neatly and discreetly into every leg and support rail.

This image shows two 1500mm x 1500mm Apollo tables linked together.

# power and data

Apollo offers full power and data capability. Its flexible leg and rail design ensures the power and data units can be positioned anywhere on the table top and in multiple locations.

When power and data is specified price and delivery will be confirmed upon application.

To ensure the utmost reliability Apollo incorporates the Red Dot award winning Schulte EVOLine® FlipTop power and data units.

EVOLine® FlipTop is made of solid stainless steel and offers a timeless design. International modules for electricity, data and multimedia can be effortlessly combined. The cable outlet strip is available as a brush or rubber lip.

EVOLine® FlipTop can be closed with power and data connected ensuring a clean and tidy working surface.

## EVOLine® Flip Top

2 power and 2 data is the standard power and data offer from Boss Design.

# bespoke tables

The Apollo table range is available in a variety of sizes, shapes and finishes. Should you require a table that is not detailed in this brochure or need to order power and data capability please complete and return the Bespoke Table Enquiry form which is available on the Boss Design website ([http://www.boss-design.co.uk/products\\_detail.aspx?id=37](http://www.boss-design.co.uk/products_detail.aspx?id=37)) or contact Boss Design on 01384 455570.

- Edge profile is square
- Legs and frames will be available as standard in polished aluminium
- Cable management through the legs and rails will be fitted as standard
- Power and data options are available on every table top size and finish and will be priced on application

## | delivery and installation options

In order to ensure that all supplied tables are constructed to the highest possible standard of build, we recommend that one of the two options below are selected by our clients:-

1. That Boss Design delivers and installs all tables utilising our own trained workforce.
2. That clients, (or the client's nominated representative), pick up the product from our factory at a pre-arranged date and time. This provides the opportunity to:-
  - a. Ensure that the installers understand the build method
  - b. Ensures that the installer can review the required bill of materials, and sign off receipt of all components.

By ensuring that all tables are supplied via one of the above methods, we can be certain that the product can be built as necessary and to the standard our clients expect.

## | accompanying credenzas

Matching credenzas can be supplied to accompany your Apollo table. These are available in range of sizes, shapes and finishes. Contact your Boss representative for further information.

Credenza unit in Black American Walnut quarter cut veneer with brushed aluminium profile handles.  
Size 1800mmW x 450mmD x 750mmH

Lockable credenza unit in Black American Walnut laminate with brushed aluminium bow handles and chamfered front edge.

## | environment

### apollo ecological credentials

Recycled content	61.19%
Recyclability	100%
Returnable packaging	CFC & HCFC Free
Carbon Neutral	Yes
Climate Neutral	BS EN ISO 14001

### apollo environmental product breakdown

Materials	Weight	% Weight	Recycled content	Recyclability
MDF - 2000mm x 1000mm x 30mm veneer top	42kg	85.19%	65%	100%
Aluminium - Support rail, polished legs, bracket	5.686kg	11.52%	33%	100%
PVC - Cable management	0.588kg	1.2%	0%	100%
Steel - Corner brace, fixing block, various fixing screws	0.974kg	1.98%	100%	100%
Nylon & Steel - Adjusting foot	0.030kg	0.06%	30%	100%
Nylon - Foot insert	0.026kg	0.05%	33%	100%
			61.19%*	100%*

\* Please note that these figures are based on the Apollo table with a 2000mm x 1000mm MDF veneered top only, and polished aluminium legs.

The total CO2 measure has been officially verified by FIRA and includes utilities and transport from suppliers.

Alternative breakdowns are available on request.

CO2 per 1000 units	87.37 tonnes
CO2 per unit	0.09 tonnes

### environmental statement

At Boss Design we are passionate about caring for the environment. We are holders of the Queen's Award for Enterprise for Sustainable Development, FSC accredited and a carbon neutral company.

Not prepared to compromise on quality, wherever possible we purchase raw materials with the highest recycled content. We work with like-minded suppliers who use raw materials and components obtained only from ethical sources.

We constantly review our global logistics operation to ensure that we minimise any negative impact on the environment. We actively monitor the carbon footprint of our products throughout their life-cycle and work closely with the Greenworks organisation to deliver our award winning end-of-life product management process. This service allows clients old corporate furniture to be collected, redistributed and reused by local good causes. Where furniture is not fit for reuse it is broken down and recycled.
