Project-Inrichting.nl

Mobi is an **innovative mobile workplace** developed specifically for today's flexible work environments.

Mobi – design Andrea Ruggiero, är en innovativ mobil arbetsstation som tillåter användaren att omdefiniera sin arbetsplats efter behov. Specifikt utvecklad för dagens flexibla arbetsplatser så består Mobi av en arbetsytan och en ljudabsorberande avskärmning på låsbara hjul. Detta gör att den lätt kan flyttas och omgrupperas av en enda person. Mobis textilklädda avskärmning finns tillgänglig i flera färger och i två standardhöjder beroende på hur mycket avskildhet man önskar.

Mobi – design Andrea Ruggiero, is an innovative mobile workstation that allows the user to reconfigure his or her workspace on demand. Developed specifically for today's flexible work environments, Mobi consists of a work surface and a sound-absorbing partition on locking wheels, so it can be easily moved by one person. Mobi's fabric covered partitions are available in a dynamic range of colours and in two standard heights depending on the desired amount of privacy.

Mobi – design Andrea Ruggiero, ist eine innovative mobile Workstation, die es dem Benutzer erlaubt, seinen Arbeitsplatz nach Bedarf zu verändern. Mobi wurde für die flexible Arbeitswelt von heute entwickelt und besteht aus einer Oberfläche und einer geräuschdämmenden Trennwand auf feststellbaren Rollen, die es auch einer einzelnen Person problemlos ermöglichen, die Workstation zu bewegen. Die mit Stoff bespannte Trennwand von Mobi ist in vielen verschiedenen Farben und zwei Standardhöhen erhältlich – je nachdem, wie viel Privatsphäre gewünscht wird.

MOBI

Mobi's partitions are covered in Fabric Runner from Gabriel and are available in a dynamic range of colours and in two standard heights; 1000 and 1600 mm, depending on the desired amount of privacy. The width of the screen is 1510 mm. The length of the table top is 1400 mm. The table top width is 600 mm on the narrowest part. The widest part of the table is 900 mm. The height of the table is 710 mm.

The table is made from white laminate MDF board (RAL 9016). There is a discrete cable opening on the table top edge.

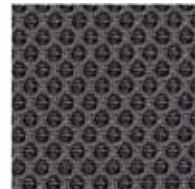

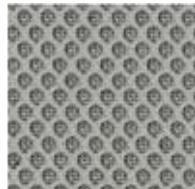

Description	Art no	Weight
Mobi, screen height 1000 mm	112 010 00	37 Kg
Mobi, screen height 1600 mm	112 020 00	43 Kg

MOBI TECH

Mobi Tech is a low sideboard with lockable wheels and a screen that becomes an ideal temporary surface for a desk. The backside partition is covered in fabric Runner from Gabriel. When placing an order, please indicate colour suffix. The side board is made from white lacquered MDF RAL 9016. There is a discrete cable opening in the backside of the sideboard. TV is not included. The sideboard contains two compartments.

Desk height: 550 mm. Screen height: 1610 or 1010 mm. Width: 1520 mm, depth: 490 mm.

Description	Art no	W x H x D mm
Mobi tech, screen height 1610 mm	112 160 00	1520 x 1610 x 490
Mobi tech, screen height 1010 mm	112 150 00	1520 x 1010 x 490

ISLA

Isla is the movable poseur table with its own screen for partitioning and sound absorbency. The backside partition is covered in fabric Runner from Gabriel. When placing an order, please indicate colour suffix.

Table is made from white lacquered MDF board RAL 9016. There is a discrete cable opening in the top plate. Table measure: H 1100 x Ø 700mm. Screen measure: H 1030 mm x W 730 mm. The highest total measure, when Isla is assembled: 1600 mm.

Description	Art no	W x H mm
Mobi Isla	112 110 00	730 x 1600

ROVER

Rover is a mobile storage pedestal with a roll-front and lockable wheels. The storage is made from white lacquered MDF board RAL 9016. Available in four different sizes.

Description	Art no	W x H x D mm
Rover H575 (1 compartment)	112 050 00	724 x 575 x 433
Rover H710 (2 compartments)	112 060 00	724 x 710 x 433
Rover H904 (2 compartments)	112 070 00	724 x 904 x 433
Rover H1100 (3 compartments)	112 080 00	724 x 1100 x 433

Mobi consists of a worksurface and a sound-absorbing partition on locking wheels, which allows the user to reconfigure their workspace on demand. One person can easily move Mobi. Combining units can create a variety of configurations, from collaborative team-based arrangements to individual workstations.

Unlike traditional partition-based systems, Mobi is easily assembled on-site and does not require a costly installer or special tools. The full-sized work surface can accommodate up to three people for impromptu meetings and Mobi can adapt to any space or capacity requirement by simply adding or removing units.

This scalability makes Mobi the perfect solution for open-plan offices and other facilities that requires a flexible layout. Mobi is also ideally suited for consultancy and sales situations such as banks, travel agencies or car dealerships and can also be specified for "hot desking" or hoteling office arrangements where workers transition from office to office without a dedicated workstation.
