**The world and its demands is getting
more complex !**

Solutions are increasingly required that combine the best elements of various paradigms to create something entirely new.

hybrid

THE FUTURE IS HYBRID!

hybrid – objective consideration

hybrid is the combination of the well-proved T5
flourescent lamp technology

hybrid – objective consideration

hybrid is the combination of the well-proved T5 fluorescent lamp technology with future oriented LED- area light technology

hybrid – objective consideration

Indirect light:

T5 fluorescent lamp 2x54 W

- Positive effects of the room illumination due to 94% indirect light – brightly felt environment
- Very high energy efficiency – more than 90% Luminaire efficiency
- Warm and harmonic Light colors (neutral white with 4.000 Kelvin or warm white with 3.000 Kelvin)

hybrid – objective consideration

Direct light:

12 LED Spots 3W - LED area light

- LED-area light – the LED Spotlight is spread due to an optical system specially designed by Waldmann
- Energy-saving – 12 LED-Spots with 3W each
- Cool and motivating light mood with a high proportion of blue light (approx. 6.500 Kelvin)

hybrid – emotional consideration

Leuchtengestaltung

- Clear, cubic design
- Anodized aluminium housing
- Exclusive, almost futuristic appearance
- Size reduced to a minimum – height 28 mm

hybrid – emotional consideration

Customised Lighting moods

- LED-area-direct light and fluorescent lamps can be switched and dimmed separately

hybrid – emotional consideration

CUSTOMISED LIGHTING MOODS

A cool and motivation lighting mood, thanks to the high proportion of direct LED light.

hybrid – emotional consideration

CUSTOMISED LIGHTING MOODS

Balanced lighting mood with an even distribution of direct/indirect light

hybrid – emotional consideration

CUSTOMISED LIGHTING MOODS

A warm, calming lighting mood, thanks to the high proportion of indirect illumination

hybrid – Highlights

Highlights at one sight

- Symbiosis of LEDs and fluorescent lamps
- Exclusive and exceptional design
- Environment-friendly and energy-saving
- Technologically unique
- Individually adjustable lighting comfort, thanks to separate switching and dimming functions

**THE FUTURE
IS HYBRID**
